Note:

1. **Memory card slot (local storage) is not supported for Argentina.**
2. Mind the following when using a memory card for recording:
 - Recorded data on the memory card can be damaged or lost if the data are accessed while the camera is under physical shock, power interruption, memory card detachment or when the memory card reaches the end of its lifespan. No guarantee is provided for such causes.
 - The stored data can be lost if the memory card is not accessed for a long period of time. Back up your data periodically if you seldom access the memory card.
 - Memory cards are expendable and their durability varies according to the conditions of the installed site and how they are used. Back up your data regularly and replace the memory card annually.
 - Replace the memory card when its read/write speed is lower than 6 MB/s or when the memory card is frequently undetected by the camera.
3. It is recommended to use memory cards of the following setting and specifications:
 - Apply a battery backup (UPS) to avoid power outage.
 - Use Micro SD card of MLC NAND flash, Class 10 for better performance.
4. Mind the following limitations and requirements for local storage (USB hard drive):
 - The USB hard drive must be of 2.5" or 3.5", version 2.0 or above
 - The USB hard drive's storage capacity must not exceed 2TB
 - USB flash drives and USB hubs are not supported
 - External power supply is required
 - To connect a GV-WiFi Adapter, make sure it is connected before the camera is powered on.
5. The following models are IK10 vandal resistant for their metal casing:
 - IR Arctic Box Camera
 - Bullet Camera (except GV-BL120D / 130D / 220D / 320D)
 - Ultra Bullet Camera
 - Target Bullet Camera
 - Mini Fixed Rugged Dome
 - Fisheye Rugged Camera
6. GV-SD220-S is IK10 vandal resistant for its metal and polycarbonate casing.
