

DESCRIPTION

ASK-4 Kits #200, #300, and #400 are single zone audio monitoring systems designed to interface with CCTV and real time or standard VCR's. The microphone may be ceiling or wall mounted and can pick up normal sounds 15 feet away, all directions, or within a 30 foot circle.

ASK-4 KIT #200 is designed for direct connection to a video monitor with built-in amplifier and speaker. An interface adapter (Model MA-1) is included to interface microphone with video monitor.

ASK-4 KIT #300 is designed for direct connection to a VCR or to a computer sound card. Model IF-1 Interface Adapter receives wiring from microphone and contains a jack for 12 Vdc power. Also, audio output jacks for easy connection to a VCR or computer card, single RCA cable and 3.5mm stereo cable included. NOTE: ASK-4 KIT #300 does not include an amplifier for playback from a VCR.

ASK-4 KIT #400 is a **single** zone audio monitoring system that contains two microphones to expand the listening area. Both microphones are mixed, then channeled through the same amplifier (audio base station). Audio base station has input/output to VCR.
