

GeoVision Q3 2014 Certificate Training

GeoVision will be hosting the Q3 2014 training at the Irvine corporate office, 8/19/14-8/21/14. This is a great opportunity for users of various experience levels to receive hands-on training on GeoVision software as well as gain an overview of our solutions (i.e. CMS, PoE Switches, Mobile App, Decoder Box, Access Control, LPR, and Loss Prevention). The training will be structured for a workshop-like experience and each participant will be assigned a workstation, complete with NVR Server, IP cameras, CMS software, etc. Spots are limited so make your reservation today and be a part of this learning experience with our in-house technicians. This event is free of charge but a reservation is required for admission. Daily lunch will be provided.

To sign up for the Q3/2014 training, please [complete this registration form](#).

**Cancellations or no-shows after confirmation will result in disqualification from future sessions*
