MULLION MOUNTING BRACKET FOR IX-DV

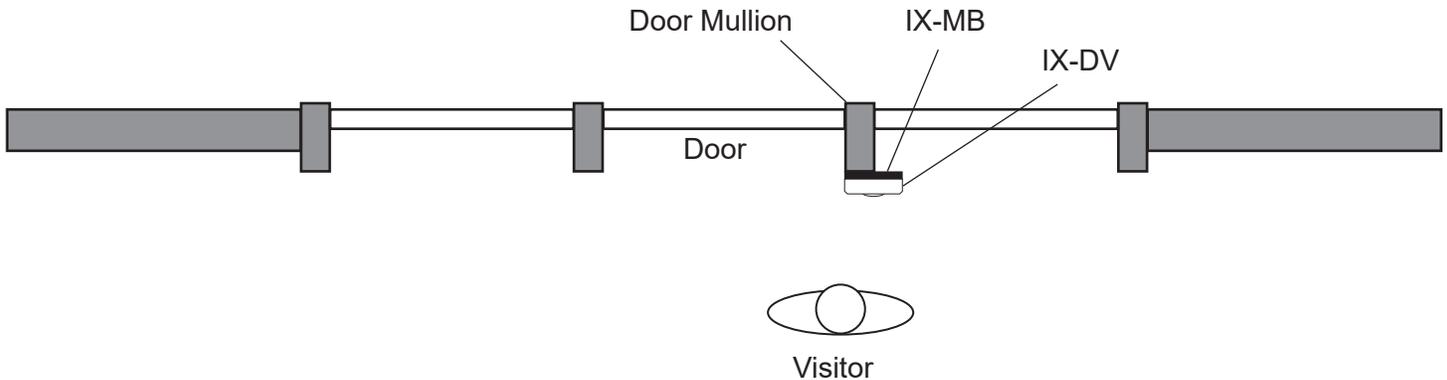

## -INSTALLATION INSTRUCTIONS-

### DESCRIPTION

The IX-MB is a mounting bracket for installing the IX-DV video door station onto a mullion style door frame. The IX-MB can be installed on either side of the door.

### Package Contents

- Mullion Bracket
- Packet of screws
- Installation Instructions

### MOUNTING

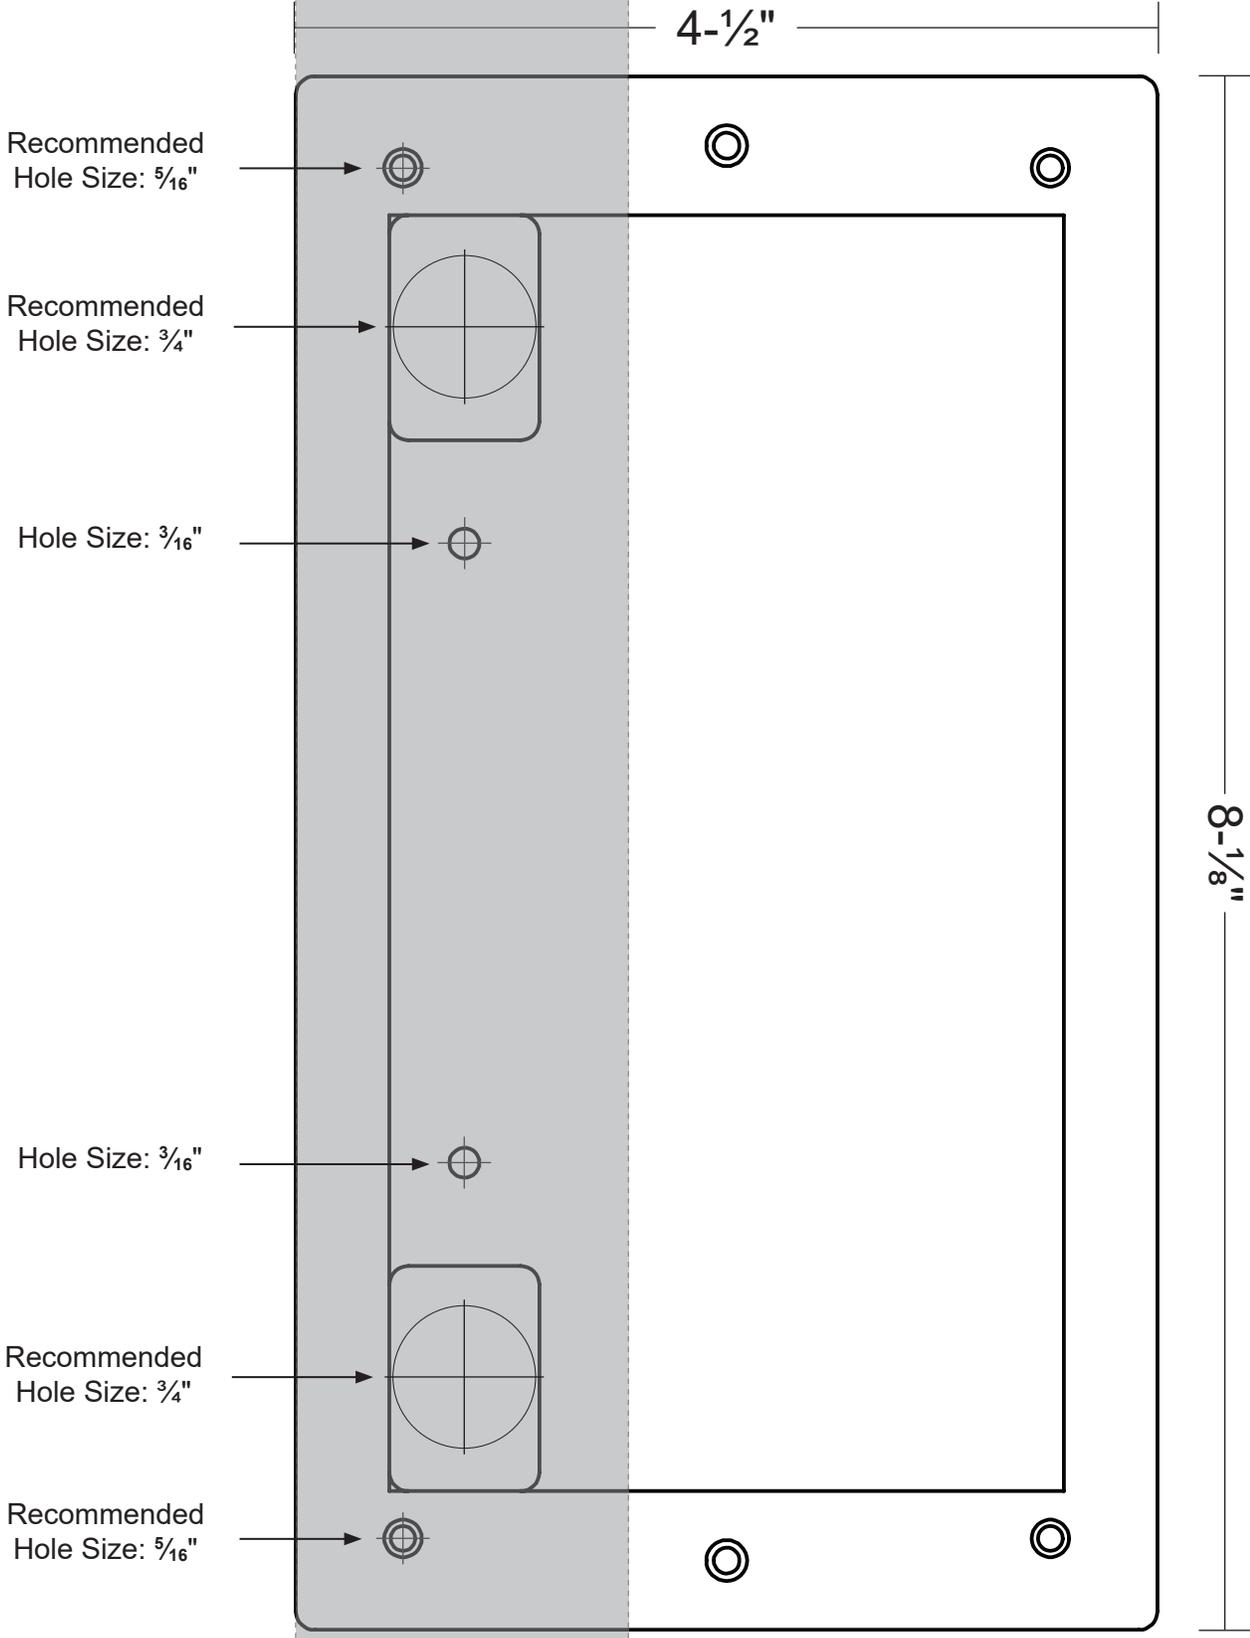

1. Use template to drill out hole locations on mullion.
2. Run wires through door mullion and out to where station will be installed.
3. Run wires through the cutout on the IX-MB and mount bracket to the door frame.
4. Connect wires to the door station. **Do NOT make wiring connections while the station is powered.**
5. Secure the IX-DV door station to the IX-MB bracket with the screws provided.

See back page for template of the IX-MB.
