

Cuts The Price On Micro Secure 100

Act Now, Save Up To 33%

Effective immediately and only for a limited time, Alpha Technologies Ltd. is offering incredible pricing on its Micro Secure 100 (100W ruggedized, outdoor uninterruptible power supply).

Whether you buy directly through Alpha or through one of our channel partners, you can save up to 33% off your regular price when you buy the Alpha Micro Secure 100 by the pallet (36 pieces).

Contact your Alpha representative to learn more about this special offer or contact us at 800-667-8743 (toll free) or 604- 430-1476 (direct) and we would be happy to direct you to our nearest Alpha reseller.

The Alpha Micro Secure 100 provides constant, reliable backup power for small, critical load applications in harsh environments such as security cameras, surveillance systems, WiFi equipment and outdoor lighting. With its NEMA 3R enclosure, this easy-to-install solution includes a UPS power module and battery bank for an all-in-one out-of-the box solution: just wire the inputs, your load and communications (if selected), and it's ready for operation. Due to its compact design and light weight, the Micro Secure can easily be wall or pole mounted (when using the optional pole mounting bracket). An optional Ethernet/SNMP interface is available to ensure you remain connected with your application.
