

AxIAS 245VSC

VCR Security Cabinet

The AxIAS 245VSC is a rugged indoor security lock box designed to house and protect commercial video camera recorders. It is constructed of 16-gauge cold rolled steel with a powdered coated textured finish and comes from the factory complete with a 120 Volts fan and filter as standard equipment. The AxIAS 245VSC features a removable lid for easy and quick access, air vents to keep the housed equipment cool, two-2 inch cable ports for power and video cables and internal space for power plug strips, power supply and other related components.
