**PART#: 75135-407**

**MFG: SUZUKI**

**MODELS & YEARS:**

**SX4 2007-2012**

## **\*\* ADVISEMENT \*\***

Read instructions completely prior to starting installation. All InDash Mounts are designed so that after installation, phone is facing normal driver position for left-hand drive vehicles. This mount is not designed to be used in foreign countries with right-hand drive vehicles. Use extreme care when working around the plastic components on the dash. Excess force, can cause breakage of the plastic components.

**STEP #1:** With Dash tool remove the right side radio and climate control bezel, starting at the bottom, pry out releasing (4) clips. Tilt up from the bottom and pull down to allow vertical pin to release from the top of the bezel into the dash.

**STEP #2:** With Phillips screwdriver remove the lower right side radio screw. Place the Indawsh Mount over the screw hole. Replace the screw.

**STEP #3:** .We have provided (1) Optional screw to install in the other hole on the InDash by PanaVise Mount. This screw will not need to be tightened down all the way, just snug it to the mount.

**STEP #4:** Replace the dash bezel.
