

AXIS 216FD/216FD-V Network Cameras

Discreet cameras for demanding indoor video surveillance.

- > Discreet and compact design
- > Simultaneous MPEG-4 and Motion JPEG
- > Two-way audio
- > Power over Ethernet
- > Powerful event management

The AXIS 216FD family offers a choice of professional networked fixed dome solutions for exposed indoor locations. Compact and discreet, they are ideal for the indoor surveillance of retail stores, schools, prisons, banks and other office buildings.

AXIS 216FD-V is a discreet fixed dome network camera specifically adapted for indoor environments potentially exposed to vandalism. AXIS 216FD has a lighter, tamper-resistant casing and is also suitable for indoor video surveillance. AXIS 216FD Network Cameras are easy to install, allowing flexible mounting on wall or ceiling.

Simultaneous MPEG-4 and Motion JPEG video streams allow for optimization of image quality and bandwidth efficiency.

With two-way audio support, AXIS 216FD and AXIS 216FD-V allow remote users to not only view but also listen to and communicate with visitors and intruders.

The event management capabilities ensure efficient use of the cameras in the network video system. This includes video motion detection, audio detection, active tampering alarm and alarm buffering.
