

DD5-FM Dome Mount

FIXED CAMERA MOUNT FOR SPECTRA® SERIES

Product Features

- Fits All Spectra III™ and Spectra® IV or Newer Model Back Boxes
- Quick Electrical and Mechanical Connections to Back Box
- Adjustable Mounting Bracket for Fixed Camera
- Prewired for Camera Video and Power
- Interchangeable with Spectra III and Spectra IV or Newer Model Pan/Tilt Dome Drives

(CAMERA AND LENS NOT SUPPLIED)

The **DD5-FM** is a fixed camera mount that can be installed in any Spectra III™ Series, Spectra® IV Series, or newer model back box. This makes it ideal for applications that require specialty back boxes, such as pressurized or stainless steel.

The **DD5-FM** snaps into place in the back box exactly the same as Spectra's regular pan/tilt dome drive, making the **DD5-FM** just as quick and easy to install and remove. And, because the back box connections are the same, the **DD5-FM** can be exchanged with a pan/tilt dome drive if camera requirements change.

Pelco's compact cameras (C10CH-6/C10CH-6X, C10DN-6/C10DN-6X, and CCC1390H-6/CCC1390H-6X) are suited for the **DD5-FM**. The camera bracket has pan and tilt adjustments to set the camera for the desired viewing angle. The **DD5-FM** is prewired with a video cable and a pair of power wires to make video and 24 VAC power connections to the camera simple and easy. Once installed, the camera does not need to be removed from the **DD5-FM** if it is necessary to take the camera mount out of the back box.

TECHNICAL SPECIFICATIONS

MODEL

DD5-FM

Fixed camera mount for Spectra III and Spectra IV or newer model back box

ELECTRICAL

Camera Voltage 18-30 VAC; 24 VAC nominal
 Camera Connections
 Video BNC
 Power 2 wires, 26 AWG

GENERAL

Maximum Camera/Lens Size Accepts camera and lens combinations* including BNC connector up to 5.00" L x 2.75" W x 2.75" H (12.70 x 6.99 x 6.99 cm)
 Pan Adjustment 360°
 Tilt Adjustment 90°
 Construction Polymer plastic and aluminum
 Unit Weight 1.2 lb (0.5 kg)
 Shipping Weight 3 lb (1.35 kg)

*Assumes lens is fully extended.
