

EPTZ Series Speed Dome

Outdoor PTZ with wall mount bracket

Indoor PTZ with concrete ceiling mount adaptor

Clear your NIGHT vision!!

The high performing EPTZ Series PTZ speed domes features True Day/Night for 24/7 monitoring, Wide Dynamic Range for extreme lighting conditions and eliminates image noise with Dynamic Noise Reduction. EPTZ Series is also engineered with privacy zone masking to keep certain areas within the camera's field of view private. EverFocus EPTZ Series PTZ speed domes are structurally design to simplify installation for all outdoor and indoor applications.

Product Overview

The revolutionary EPTZ speed dome series made by EverFocus has high performing true day/night function equipped with a removable IR cut filter. During the day, the IR cut filter is utilized for daytime true color recognition and is removed in low-light conditions to maximize infrared sensitivity for clear night vision image.

EPTZ Series can also capture and dramatically improve image quality in scenes consisting of bright and dark areas with Wide Dynamic Range feature. In addition, EPTZ is designed for simple installation and supports all types of mount applications. EPTZ Series comes in both outdoor and indoor models and is available in 27x, 30x and 36x optical zoom.

Features

- Excellent position accuracy to ± 0.1 degree
- Pan/tilt speed from 0.01° to 360° per second
- Simple "snap & lock" camera installation
- Weatherproof IP66 rated to endure all weather conditions (outdoor models only)
- Maximum 192 preset positions available
- Programmable auto panning, 16 tours, 4 patterns
- 4 priority alarm inputs & 2 alarm outputs
- Smart alarm reaction & resume after alarm
- Enhanced auto-resume & power-up function
- RS485 communication
- Multi-line on screen menu
- Digital Flip Function
- Supported protocols: AUTO, EVF, Pelco-P, Pelco-D/Plus-D, A-Type, Panasonic (auto detection)
- Built-in 27x /30x /36x optical AF zoom lens
- Resolution of 480/520/530 TVL
- True Day/Night function with removable IR cut filter
- High sensitivity for better image quality at night
- Wide Dynamic Range (WDR)
- Digital Slow Shutter (DSS)
- Built-in Dynamic Noise Reduction (DNR) (EPTZ3100/3100i only)
- Motion Detection
- Privacy Zone Masking (exclude EPTZ2700/2700i)

Advantages

Wide Dynamic Range (WDR)

WDR feature captures and dramatically improve image quality in scenes consisting of bright and dark areas. Traditional CCD speed domes may have difficulty processing images in strong backlighting. EPTZ Series will process each pixel independently, providing high-quality images with enhanced dynamic range under extreme lighting conditions.

Traditional Speed Dome

WDR Speed Dome

Normal

BLC

WDR

Powerful Auto Mode (AutoPan/Tours/Patterns)

- Adjustable left/right PTZ position, dwell time and speed for auto panning function
- A tour can be composed of preset positions (selectable dwell time / speed) and patterns
- 16 preset positions per group; 16 groups per tour
- 4 patterns with 90 seconds per pattern
- Enhanced auto resume to previous mode, position, tour, pattern or auto panning

True Day/Night & Digital Slow Shutter

EPTZ Series features True Day/Night with manual IR cut filter for day or night performance. During the day, the IR cut filter is utilized for daytime true color recognition and is removed in low-light conditions to maximize infrared sensitivity for clear night vision image. With digital slow shutter feature, shutter speeds are automatically adjusted based on lighting conditions.

Built-in Dynamic Noise Reduction (DNR)

Dynamic Noise Reduction feature can eliminate pixel noise created from low lighting environments. With DNR, ghost and blooming effects are reduced dramatically, producing clean and vivid images. DNR technology also allows a 70% saving of disk storage. This feature is ONLY available with EPTZ3100 and EPTZ3100i.

With True Day/Night

Without True Day/Night

Normal Camera

DNR

High Speed & Position Accuracy

- Excellent preset accuracy to ± 0.1 degree
- Pan/tilt speed from 0.01° to 360° per second
- Ultra stable pan in slow motion

Privacy Zone Masking

When monitoring, there may be certain areas within the camera's field of view that needs to be kept private (for example: a window or doorway to a house). Privacy zone masking enables certain monitoring areas to be concealed from surveillance view, offering up to 8 different areas per screen with selectable masking color. This feature is NOT available with EPTZ2700i or EPTZ2700.

Digital Flip Function

Digital Flip immediately enables automatic 180° turn for improved tracking right below the camera of an object in motion.

Easy Installation

Simply snap in & lock the camera module into the housing base for a quick and easy installation. EverFocus patent-pending wall mount bracket makes installation easier with a attached arm mount base.

Multi-line On-Screen Display (OSD)

Easy to use multi-line OSD menu for PTZ operation and control.

Maximum 192 Preset Positions

With up to 192 preset positions, each camera position can be set based on surveillance area, dwell time, adjustable speed, focus mode, white balance and title.
