ETP-PM/ED – Economy Dual Pedestal Mount

Description
Free standing Economy Dual Pedestal Mount allows an Emergency / Information or Access phone and Card Reader or other device to be mounted practically anywhere. The gooseneck mount is ideal for drive-up or walk-up applications including garage access control and entry.

Features
- Constructed of vandal resistant 3/16" thick painted steel
- Mount any Talk-A-Phone flush mounting outdoor phone
- Hinged panel for easy installation of phone and card reader, camera or other device
- Available in custom colors with lettering on side
- Includes acrylic spacer to aid in magnetically isolating card readers for increased range

Shown with **ETP-400C** and card reader

Specifications
Dimensions: 25.0(635) W x 18.0(457) D x 42.5(1080) H in(mm)
Weight: 45 lbs. (20.4 kg)
Construction: 2" (51mm) O.D., 3/16" (4.8mm) thick steel with multi-coat rust-inhibitive coating
Power: Emergency Phone (sold separately) is powered by phone line

Communication Options
Emergency Phone: Model **ETP-400** has a standard red EMERGENCY button
Access Phone: Model **ETP-400C** has a standard red TO CALL button
Emergency/Info Phone: Model **ETP-400D** has a red EMERGENCY button and a black INFO button to allow two different types of locations to be called
Emergency/Keypad Phone: Model **ETP-400K** has a red EMERGENCY button as well as a black CALL button which allows access to the built-in keypad

Options & Accessories
Faceplate Camera: Add "-OP3" (e.g. **ETP-400C-OP3**) to any Emergency/Information Phone for an integrated color camera mounted behind the faceplate. Add "OP-3BW" for a black and white camera.
Voice Location Identifier: Add "V" to any Emergency/Information Phone model to include the capability to record a message identifying the location of the call. Message is recorded and duration set during programming.
RF Interface: Models **VOIP-RF** and **VOIP-1** when used in conjunction with a phone listed above creates a Radio Frequency Emergency Phone. (Note: other RF equipment is required for a complete system)
Cellular Interface: Model **ETP-CI** when used in conjunction with a phone listed above creates a stand-alone cellular Emergency/Information Phone.
