

DESCRIPTION

The FM1 and FM2 are fully-adjustable camera brackets which can be used in a wide range of camera housings. The brackets are easy to use, with the ability to be adjusted to meet a variety of viewing settings. Both brackets support an assortment of cameras, in single and multiple camera applications.

FEATURES

- Constructed of heavy-duty 14-gauge steel with reinforcing walls to resist vibration
- Easily adjustable brackets enable cameras to be positioned in multiple viewing configurations
- Brackets can be easily adapted to fit a variety of new and existing camera housings
- Ideal for use in multiple camera applications
- FM2 substitutes short bracket for added flexibility
