

GOLDEN STATE INSTRUMENT CO.

GS-WPK5800

5.8 GHz Wireless Video and Audio Transceiver & Receiver

Features:

- Turn any CCTV camera into a wireless camera – For camera installations that is impossible or difficult to run wires to.
- 5.8 GHz – When using 5.8GHz you are not sharing a radio frequency that is considered to be part of the public band, eliminating interference from other 2.4 GHz devices.
- 300 Ft Transmission distance with Line of Sight.
- Omni Directional Dipole Antenna 3dBi
- 8 Channel selectable by switch
- Alarm trigger input for remote sensor/detector (Built-In alarm buzzer)
- Audio Output
- Video Output
- 12 VDC Power Transformer Included

Specifications:

Model	GS-WPK5800
Frequency Channels	5725 ~ 5875 MHz, 8CH
RF Impedance	50 Ω
Video Input/Output	1.0 Vp-p Composite Video (75 Ω)
Audio Input/Output	2.0 Vp-p Max. (500 Ω)
Alarm	NC / NO / COM (Dry Contact)
Power Consumption	250mA
Voltage	12 VDC
Operating Temperature	-10°C ~ 50°C
Dimensions	110 x 88 x 30mm (Without Antenna)
