

HS-RF-1 – Wireless Headset

Description

The **HS-RF-1** is a wireless headset system that combines the clarity and performance of traditional corded technology with hands-free convenience of wireless mobility. **HS-RF-1** is used with the **IW-HFM-4** hands-free intercom system.

Features

- Noise-canceling microphone for business-level sound clarity
- Unique 3-in-1 headset design can be converted to over-the-ear, over-the-head, or behind-the-head wearing styles
- DECT 6.0 for interference-free communication and roaming range of up to 300 feet
- Handset lifter lets users answer and end calls remotely
- Up to 10 hours of talk time on a single battery charge
