On-Q	IC1002-IV

Intercom Module & Main Console Unit, Ivory - IC1002-IV

The Broadcast Intercom System offers a simple solution for family communication. LED lights on the main console show all room activity, and a separate microphone and high-quality speaker deliver crisp, clear sound to each unit. Trimmed in a standard 3-gang decorator plate, the main console can match any decor.

FEATURES

- **LED lights show stations in-use (green), mute (red) or monitor (orange).**
- **Specially filtered to help reduce electrical interference noise.**
- **Simple RJ45 plug design for easy installation and trouble shooting.**
