

Sarix™ IMS0-E Series Environmental Mini Fixed Dome

INDOOR/OUTDOOR, NETWORK, 0.5 MEGAPIXEL, STD DEFINITION DIGITAL CAMERA

Product Features

- Up to 0.5 Megapixel Resolution (800 x 600)
- Up to 30 Images per Second (ips) at All Resolutions
- Compact Size with 3-Inch Bubble
- Autofocus Varifocal 2.8 ~ 10 mm Lens
- Vandal-Resistant, Indoor/Outdoor, Environmental
- H.264, MPEG-4 and MJPEG Compression
- Color and Day/ Night Models
- Sensitivity Down to 0.03 lux
- Power over Ethernet (PoE), IEEE 802.3af
- Up to 2 Simultaneous Video Streams
- Web Viewing, up to 16 Cameras Simultaneously
- Open IP Standards

The **Sarix™ IMS0-E Series** is a standard definition network indoor/outdoor fixed dome camera designed with industry-leading image quality and high performance processing power. Its sturdy metal design is tamper-resistant and is designed for worry-free use in a wide range of environmental operating conditions, such as environmental air handling spaces. The back box is plenum rated per 2008 NEC article 300.22(C)(2).

Sarix technology defines the next generation of video security imaging performance, delivering high definition (HD) resolution, advanced low-light capabilities, consistent color science, and fast processing power. H.264 compression video files are considerably smaller making HD video more affordable.

Fixed Dome Camera

The **IMS0-E Series** camera is a compact indoor/outdoor enclosure that is ready to install. Available in color and day/night models, all cameras feature an integrated autofocus varifocal 2.8 ~ 10 mm megapixel (MPx) lens. Additionally, the day/night model has a mechanical IR cut filter for increased sensitivity in low-light installations.

The **IMS0-E Series** supports two simultaneous video streams. The two streams can be compressed in MJPEG, MPEG-4, and H.264 formats across several resolution configurations. The streams can be configured in a variety of frame rates, bit rates, and group of pictures (GOP) structures for additional bandwidth administration.

Built-In Analytics

The **Pelco Camera Sabotage** behavior is a standard feature of the IMS0-E Series. This behavior detects contrast changes in the field of view. An alarm is triggered if the lens is obstructed with spray paint, a cloth, or covered with a lens cap. Any unauthorized repositioning of the camera also triggers an alarm.

Web Interface

The **IMS0-E Series** uses a standard Web browser for powerful remote setup and administration. Up to 16 cameras can be viewed on the same network.

Window Blanking

Window blanking is used to conceal user-defined privacy areas that cannot be viewed by an operator. The **IMS0-E Series** supports up to four blanked windows. A blanked area will appear on the screen as a solid gray window.

Video Systemization

The **IMS0-E Series** easily connects to Pelco IP and hybrid systems such as Endura® version 2.0 (or later) and Digital Sentry® version 4.3 (or later). The camera also features open architecture connectivity to third-party software. Pelco offers an application programming interface (API) that enables third-party systems to interface with Pelco's network cameras.
