Sarix™ IMS0-V Series Vandal-Resistant Mini Fixed Dome

INDOOR, NETWORK, 0.5 MEGAPIXEL, STD DEFINITION DIGITAL CAMERA

Product Features

- Up to 0.5 Megapixel Resolution (800 x 600)
- Up to 30 Images per Second (ips) at All Resolutions
- Compact Size with 3-inch Bubble
- Autofocus Varifocal 2.8 ~ 10 mm Lens
- Rugged, Indoor, Vandal-Resistant
- H.264, MPEG-4 and MJPEG Compression
- Color and Day/ Night Models
- Sensitivity Down to 0.03 lux
- Power over Ethernet (PoE), IEEE 802.3af
- Up to 2 Simultaneous Video Streams
- Web Viewing, up to 16 Cameras Simultaneously
- Open IP Standards

The **Sarix™ IMS0-V Series** is a standard definition network indoor fixed dome camera designed with industry-leading image quality and high performance processing power. Its sturdy metal design is both vandal- and tamper-resistant. The back box is plenum rated per 2008 NEC article 300.22(C)(2).

Sarix technology defines the next generation of video security imaging performance, delivering high definition (HD) resolution, advanced low-light capabilities, consistent color science, and fast processing power. The H.264 compression video files are considerably smaller making HD video more affordable.

Fixed Dome Camera

The **IMS0-V Series** camera is a compact indoor enclosure that is ready to install. Available in color and day/night models, all cameras feature an integrated autofocus varifocal 2.8 ~ 10 mm megapixel (MPx) lens. Additionally, the day/night model has a mechanical IR cut filter for increased sensitivity in low-light installations.

The **IMS0-V Series** supports two simultaneous video streams. The two streams can be compressed in MJPEG, MPEG-4, and H.264 formats across several resolution configurations. The streams can be configured in a variety of frame rates, bit rates, and group of pictures (GOP) structures for additional bandwidth administration.

Built-In Analytics

The **Pelco Camera Sabotage** behavior is a standard feature of the IMS0-V Series. This behavior detects contrast changes in the field of view. An alarm is triggered if the lens is obstructed with spray paint, a cloth, or covered with a lens cap. Any unauthorized repositioning of the camera also triggers an alarm.

Web Interface

The **IMS0-V Series** uses a standard Web browser for powerful remote setup and administration. Up to 16 cameras can be viewed on the same network.

Window Blanking

Window blanking is used to conceal user-defined privacy areas that cannot be viewed by an operator. The **IMS0-V Series** supports up to four blanked windows. A blanked area will appear on the screen as a solid gray window.

Video Systemization

The **IMS0-V Series** easily connects to Pelco IP and hybrid systems such as Endura® version 2.0 (or later) and Digital Sentry® version 4.3 (or later). The camera also features open architecture connectivity to third-party software. Pelco offers an application programming interface (API) that enables third-party systems to interface with Pelco's network cameras.
