

IQeye Mini Dome High-resolution IP Cameras

The IQeye Mini Dome offers high performance in a compact, versatile and attractive minidome package. It is available in standard and interior vandal models from VGA to 2.0 megapixel resolutions, making it the highest resolution mini-dome camera in its class.

The IQeye Mini Dome camera is designed for discreet indoor use. Each camera includes black and beige trim rings to blend into the most demanding indoor architectural installations. These ultra lightweight cameras easily mount to ceilings or walls, and the true 3-axis gimbal, locking shroud and Power-over-Ethernet design saves time and money on installation and maintenance. Optional accessory kits include wall and pendant mount, wide & telephoto lenses.

The IQeye Mini Dome is completely Power-over-Ethernet, so all that is required for installation is connecting to a PoE enabled Ethernet cable and the IQeye Mini Dome is ready to go.

Standard Camera weight 8.8oz (249.5g)
Interior Vandal Camera weight 10.1 oz (287.0g)
