LT63

With unique and contemporary designs, the Moda Collection of home theater furniture strikes an ideal balance of aesthetics and functionality. Each piece in the collection – which includes everything from tables to wall furniture – is designed with ample space for components and cable management with an emphasis on high design. The Link Series was created with one thing in mind – modularity. Four pieces work together to form unique configurations which can be customized to your home theater. Their distinct design integrates a walnut or black finish, black glass and brushed nickel accents – all creating a look that is evocative, to say the least. As an integral part of the modular line, the LT63 is a flat panel video table that accommodates up to 65" flat panels and supports up to 150 lbs (68 kg). Designed with two enclosed cabinets and an open area for additional components, the LT63 can be easily used with any of the Link Series pieces to create a fully customized furniture system.

The Link Series is now available in a striking black finish with black drop-down glass doors, which allow IR signals through to easily control components

BENEFITS

- Modular pieces are designed to be linked to ensure the best possible furniture combination
- Two enclosed cabinets provide concealed component and media storage
- Open area shelves accommodate additional components or center-channel speaker
- Flush hinges on drop-down doors offer unobstructed interior space
- Brushed nickel legs accent the contemporary finish
- Padded feet protect floors
- Easy to assemble

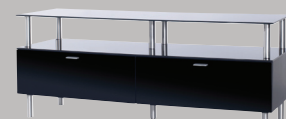

SPECIFICATIONS

- Accommodates up to 65" flat panels up to 150 lbs (68 kg)
- Top shelf supports up to 150 lbs (68 kg)
