## Model NV-RM 8/10 Rack Panel

(Shown with NV-452R and NV413A)

(Shown with ten NV-213As)

### Features:

- ▶ Ideal for Security monitoring stations or video distribution hubs
- ▶ Standard 19 inch (480mm) wide, 3.5 inch (90mm) 2U high
- ▶ Compact rugged 1/8in (3.5mm) panel with baked epoxy finish
- ▶ Supports up to ten individual transceivers or two four-channel transceivers (not included)
- ▶ Mounting hardware included
- ▶ Transceivers sold separately

The NVT Model NV-RM 8/10 Rack Panel allows multiple NVT video transceivers to be co-located onto one compact panel. Panels can reside in the same rack as other equipment, such as multiplexers.

This heavy-gauge panel is designed to withstand the mechanical load of multiple coax cables. All active transceivers can be powered from one 24VAC transformer (not included). Mounting screws included.
