

DESCRIPTION

The P3PT1650L and P3PT2450L are plug in transformers with LED and fuse protection.

FEATURES

- LED indicator supervises power
- Primary termination - two (2) male blades.
- Single mode protection - hot to neutral
- Secondary termination - 2 #6 - 32 screw terminals.

SPECIFICATIONS

- Primary termination - 120 VAC 60Hz
- Secondary termination:
 - 17 VAC 50VA (P3PT1650L)
 - 24 VAC 50VA (P3PT2450L)
- Clamping voltage - 340V
- Maximum spike current - 4500 AMPS
- Energy dissipation - 60 Joules
- UL listed  us
- Maximum spike voltage - 6000V
- Clamping response time - 25 nanoseconds
- Dimensions: 2 7/8" (H) x 2 1/4" (W) x 3 7/8" (D).
- Weight: 1.5lbs
