

DESCRIPTION

The P3REL-5-6P is a cluster assembly containing six (6) individual relay modules that can be easily separated for individual use.

The relays are used in various applications including access control, energy & building management and lighting control systems.

FEATURES / SPECIFICATIONS

- Power Requirements: 12VDC/24VDC @ 50mA coil draw per position
- One LED per module position
- Wiring: Solid or standard 12 or 22 gauge
- 10AMP/120VAC/28VDC SPDT contact
- 12VDC or 24VDC selectable operation
- Maximum charge current 50mA
- Board dimensions: 6" (L) x 3" (W) x .75" (H)
Individual: 2" (L) x 1.5" (W) x .75" (H)
