

Specification Sheet

DESCRIPTION

- P3XR24300: 24VAC 300VA 12.5A
- P3XR28300: 28VAC 300VA 10.7A

FEATURES

- Electrostatic shield-not required, dual bobbin
- Solder lug/quick connect terminals
- Class F insulation
- Chassis mounting style
- Transformers meet international safety standards by providing high isolation, clearance and increased flammability ratings.

- American and Canadian agency approvals; file #E180353

SPECIFICATIONS

- Flammability rating: Bobbin/Shroud UL 94V0
- Power rating: 24VAC 300VA
28VAC 300VA
- Dielectric strength - 4000VRMS
