# Panasonic Ready-to-Go Camera Packages

Ready-to-Go packages are carefully assembled in a dust-free environment to ensure plug-and-play operation. With package costs being equal to their separate components, the pre-assembly value is priceless!

## Pre-tested, pre-assembled, ready for installation

These time-saving packages streamline your ordering and installation. Each package arrives as a fully-assembled unit — complete with camera, lens, and housing — and ready for immediate installation at the job site. We offer a wide choice of indoor and outdoor packages, color and day/night cameras, and several vari-focal lenses to satisfy installation requirements.

## Indoor

For in-ceiling installations, Panasonic offers a wide range of Ready-to-Go packages that include both high-end and low-cost options that help satisfy almost any budget or requirement.

All package models also represent the exact same outside design and aesthetics, regardless of the inside components. This ensures a consistent, uniform appearance throughout the installation, inside and out!

Model	Type	Camera			CCD	Lens		Housing		Mount

# Outdoor

Complete with internal blower and heater units, these outdoor packages are especially efficient for larger installations. They offer a wide range of camera, lens and housing options for almost any outdoor application, including solutions with day/night capability and Super Dynamic III technology.
