PMEH8A

PMEH11

DESCRIPTION

The **PMEH8A** and **PMEH11** are designed for surface mount applications. Constructed of 14-gauge steel, these low profile wedge housings are designed for unobtrusive viewing of a hallway or lobby area. The steel mounting plate that holds the outer housing cover is easy to install and service. The **PMEH8A** and **PMEH11** are the perfect housings in applications where a higher level of security is needed.

BID SPECIFICATIONS

PMEH8A

The vandal-proof indoor wedge housing shall be a Panasonic model PMEH8A or equivalent. The body of the housing shall be constructed of 14-gauge steel, off-white powder coat, and contain a clear 3/16" polycarbonate window. An easy to-replace Window Guard™ paint shield shall allow clarity of viewing window to be quickly and economically restored in case of vandalism. Designed for Panasonic camera and lens combinations that are 8" long or less. The base plate shall be 18-gauge steel, and shall contain three conduit knockouts on the bottom section and a 7/8" hole on the rear of the base plate for control and video cable. The housing cover shall be secured to the base plate with four stainless steel 8 x 32 security screws.

PMEH11

The vandal proof indoor wedge housing shall be a Panasonic model PMEH11 or equivalent. The body of the housing shall be constructed of 14-gauge steel, off-white powder coat, and contain a clear 3/16" polycarbonate window. An easy to-replace Window Guard™ paint shield shall allow clarity of viewing window to be quickly and economically restored in case of vandalism. Designed for Panasonic camera and lens combinations that are 11" long or less. The base plate shall be 18-gauge steel, and shall contain three conduit knockouts on the bottom section and a 7/8" hole on the rear of the base plate for control and video cable. The housing cover shall be secured to the base plate with four stainless steel 8 x 32 security screws.
