

INFRARED ILLUMINATOR - 18M

PRH-5218

FEATURES :

- Indoor/Outdoor installation.
- High efficiency infrared LED, radiant distance - 18 meters.
- Sensor auto activate infrared LED under 10lux light level.
- Aluminum housing case with IP68 rating.
- Improve the image quality in low-light situations and in complete darkness.

SPECIFICATIONS :

INFRARED ILLUMINATOR		
Model No.		PRH-5218
Power Input Voltage		DC12V (±10%)
Radiant Distance		18M (59ft)
Infrared LED	Peak Wavelength	850nm
	Quantity	21 Units
	Angle	30°
	Power On	Sensor Auto Control
Window		φ 59 Heat Resistant Glass
IP Rating		IP68
Construction		Aluminum
Power Consumption		2.0W
Operating Temperature		-20℃ ~ +60℃ (-4°F ~ +140°F)
Dimension		φ 65 x 65.1 mm
Weight		160g

- * To use this illuminator with third party's AC adaptor, please make sure that the adaptor contains built-in DC regulator. An AC adaptor without built-in DC regulator can damage this illuminator.
- * Any attempt to disassemble the illuminator may hamper the waterproof ability of the illuminator.
- * Design and specifications are subject to change without notice.
