REG-L1 License Plate Cameras

- ▶ High speed capture to 160 km/h (100 mph)
- ▶ 24/7 Capture in day and dark conditions
- ▶ Advanced Ambient Rejection Technology
- ▶ Energy efficient operation at 12 to 24 VAC/VDC
- ▶ Compact housing, installer friendly design

REG-L1 integrates advances in optics, electronics, IR illumination and Ambient Rejection Technology to deliver consistent, reliable number plate capture in the most challenging of conditions

With an operational range of up to 25 m (80 ft) depending on number plate size, the REG-L1 delivers high contrast number plate images across the complete spectrum of ambient lighting conditions, from total darkness to direct glare from sunlight and vehicle headlights. The camera can capture clear plate images from vehicles moving at speeds of up to 160 km/h (100 mph) enabling effective capture on motorways, highways and in other high speed applications.

The unit housing is weather-sealed and field proven for successful application in extreme environments. REG-L1's LED array eliminates the need for routine bulb changes. An improved electronic design allows for energy efficient operation at 12 to 24 VAC/VDC

REG-L1 is designed to work with NVRs or with DVRs. It is specifically designed to work with third party ANPR software.

- Traffic monitoring
