

SHR-8080/8082

8 Ch DI Resolution Real-time
Standalone DVR

Dimensions (unit : in)

Front/Rear Panel

Summary

SAMSUNG Electronics' SHR-8000 series DVRs are a lower cost alternative to a PC Based DVR, and they are easy to use. The SHR-8000 series DVRs are designed to achieve real time DI resolution @ 240IPS high quality recording for any demanding security application.

Net-i, the free and user-friendly client software of the DVRs, gives the convenience of high definition video display and control over the entire video system. The dual codec function of the SHR series DVRs from SAMSUNG Electronics also comes into play with this new series and allows the user to record live video onto a hard drive while reviewing the previously recorded images without compromising on speed.

Other outstanding features of the series are; built in DVD-RW option, 500GB SATA HDD standard with the maximum of 6X 1TB HDD capacity, web based monitoring & search, simultaneous BNC output, VGA/ BNC output and HDMI. This is as fast as it gets!

Features

- Standard MPEG-4 compression
- DI resolution recording and viewing
- Rec. Real-time on 8 cameras: 240ips (NTSC)
- Built in internal DVD R/W (SHR-8082)
- Simultaneous recording & transmission : dual codec function
- Web based monitoring & search
- Simultaneous BNC output & VGA / BNC output & HDMI
- Stable system operation

NET-i - User-friendly client software!

Full DI Real-time Frame Rate

30 frame/sec @ DI Resolution

15 image/sec @ DI Resolution

Specifications
