

# SMC-213

21" Flat Screen Ultra-Slim Color CRT Monitor

## Dimensions (unit : in)

Front/Rear Panel

## Summary

SAMSUNG Electronics introduces the first Ultra Slim CRT Monitor. The SMC-213 is only 12.8" in depth taking up less counter space than conventional 21 Inch CRT monitors. The SMC-213 features Auto Peaking which analyzes graphic signals and then enhances the images which automatically results in clearer and sharper pictures. The slim design allows you to place your security personnel where they can be most effective, ensuring safety and the security of your business.

The SMC-213 connects to a wide range of AV Devices such as composite, BNC type, and Loop Input Video. The SMC-213 comes equipped with 2D Comb filtering which offers both brightness (white & black) and color without separate signals for the highest quality in images.

## Features

- World's first ultra slim CRT Monitor with a depth of only 12.8 inches
