

In-Wall/On Wall, Indoor/Outdoor High-End Speakers

IO2[™] Speaker Series

The SP-5IO2 easily converts from an on-wall to an in-wall speaker via built-in mounting tabs.

SP-5IO2

Speco Technologies' IO2 Speaker Series combines high-end performance and state of the art design to conquer the most demanding sound environments. Developed with premium components including aluminum-cone drivers and dome tweeters, the IO2 Speaker Series is the most versatile speaker on the market producing a powerful and impressive sound experience.

Constructed of heavy-duty, weather-resistant ABS casing, the IO2 speaker leaves indoor barriers behind by easily handling outdoor elements. Its shielded magnet feature paves the transition for crystal clear surround sound for home theater applications if desired. A sturdy, pivoting base provides focused, directional sound dispersion for on wall mounting or just simply remove the base and utilize the stealth E-Z mount tabs in the speaker's casing design for in-wall installations.

Indoor or Outdoor; In-wall or On wall, Speco Technologies' IO2 Speaker Series shows the innovative and simply unique products that has become Speco Technologies' heritage.
