**NOTE:** All STR™ modular series panels are available in White, Brown or Titanium finish, in Flush or Surface Mount styles.

**AlphaEntry™** Computerized Lobby Entry Software, shown with optional free-standing Kiosk (supplied by others). Can also be used with a touch-screen wall mount monitor or Concierge PC style Master Station(s).

With the **QwikBUS™** system, you can quickly and easily install up to 120 (or more) apartment stations with intercom (audio) and/or video-intercom capabilities, all on the same 2 twisted pair common 'bus' cable.

**QwikBUS™** is ideal for new construction or to replace existing, outdated intercom systems. Trim, surface mount stations and non-polarized 2 conductor wiring make installation a breeze.

You can even mix 'n' match intercom (audio) and video-intercom stations in the same **QwikBUS™** system.

Forget about pressing Talk and Listen buttons, or tangled handset cords. **QwikBUS™** features sharp, digital audio for the highest quality voice communications.

As an option, you can have up to 3 inside intercom (audio) or 5 inside video-intercom stations in each apartment, with the ability to call and speak within an apartment.

**QwikBUS™** supports up to 8 lobby entry stations, and you can select pushbutton, digital-dialing or PC calling type lobby entry stations.

Pick the apartment station to match your individual apartment's decor, from a selection of 6 fabulous finishes, including 24 carat Gold plated or even Crystal (glass). There are no unsightly mounting screws visible on the **QwikBUS™** apartment stations, in order to maintain a clean, finished design.

Large or small, any building can use the security, reliability and advanced features of **QwikBUS™**.
