

# Android Viewing Instructions:

[Download Manual](#) | [Download Android App](#)

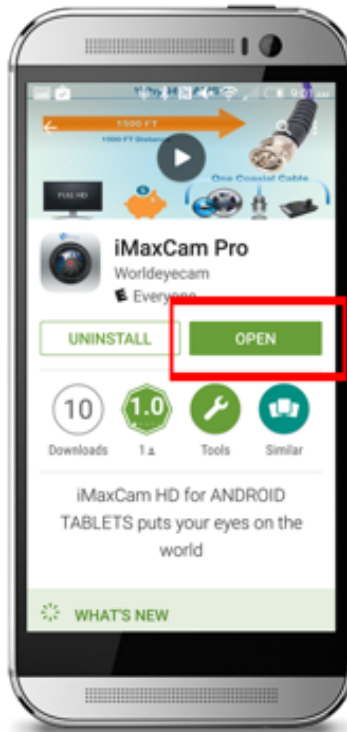

**Step 1:** Open the Google Play Store

**Step 2:** Once in the Google Play store search for iMaxCamPro. This will bring up several options for software download. The various options allow for additional options in functionality and high resolution display. For this example we will install IMaxCam.

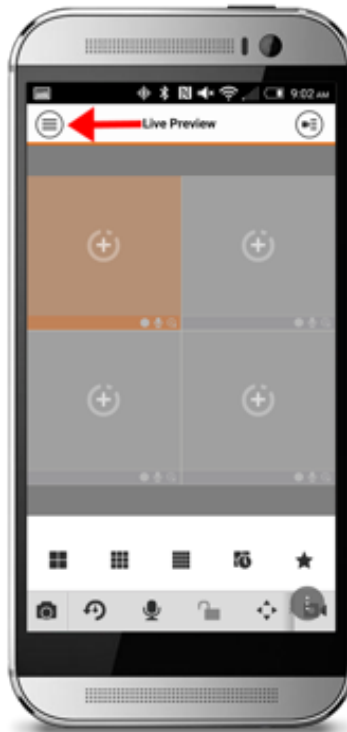

**Step 3:** Once the app is installed open it

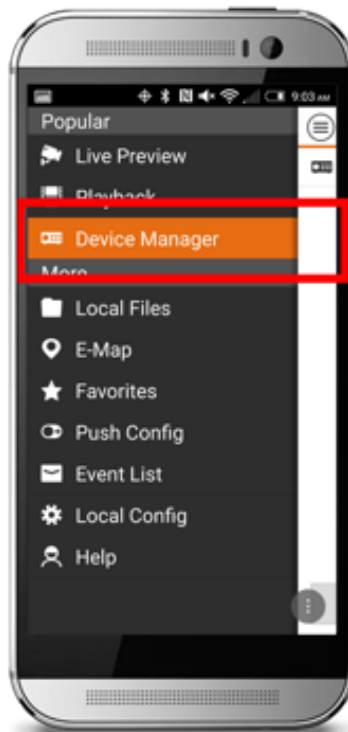

App Splash Screen

**Step 4:** Tap the menu icon on the top left corner to access the menu as shown in the picture.

**Step 5:** Tap the DEVICE MANAGER option to enter your DVR/NVR login information

**Step 6:** Once in device manager tap the plus sign button (+), in the top right corner to advance to the next screen.

**Step 7:** In the add device screen, select IP/Domain

**Step 8:** Enter the information of your NVR/DVR system.

In this example we have entered World Eye Cam demo cameras information.

**IP Address:** 98.189.205.45

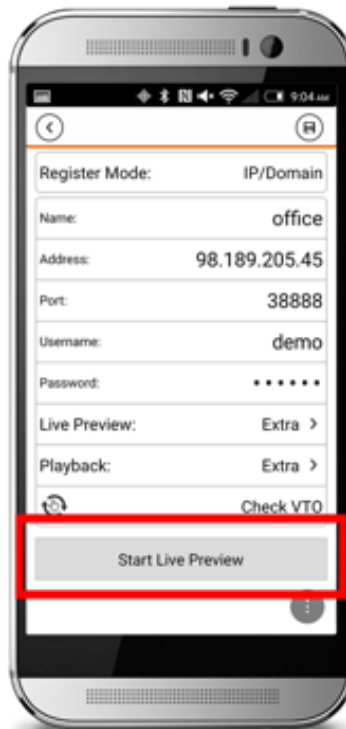

**Mobile Phone Port on APP:** 38888

**User Name:** demo

**Password:** 12123

**Step 9:** Press the "Start Live Preview" button to start watching the cameras.

**This is the Live Preview screen. The app will display up to 16 cameras at a time.**
