

CAMERA

AMX-2M02MZ-W-FR

2MP Face Detection Dome AI Network Camera

- Max. resolution: 1920 × 1080
- H.265+/H.265/H264+/H264/MJPEG coding
- 20 ~ 30m white light view distance; Motorized lens
- 3D DNR, digital WDR, BLC, HLC, Defog, ROI coding
- One CVBS output and one one-board CVBS output
- One MIC IN; One built-in MIC; Hardware Reset
- Built-in micro SD card slot, up to 128GB
- DC12V/PoE power supply
- Support smart phone, iPad, remote monitoring
- P2P function optional
- IP67 ingress protection; Support three streams
- Support face detection
- Intelligent Analytics (optional): object removal detection, abnormal video signal detection, line crossing detection, region intrusion detection, people intrusion detection, people counting detection and crowd density detection

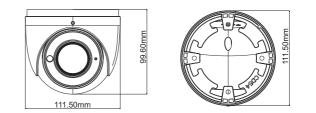

2MP Face Detection Dome Al Network Camera

LED View Distance 20 ~ 30 m Ingress Protection IP67 Face Detection Pupil distance of a facial image over 20 pixel can be detected Face Capturing By precision detecting, tracing, capturing, scoring and screening the moving faces to get the most effective face snapshots Panorama Capturing Support panorama capturing and self-defined information overlay, like device ID, time, etc. Intelligent Light Built-in high efficient white light LEDs, time switch available	General function	÷
Ingress Protection IP67 Face Detection Pupil distance of a facial image over 20 pixel can be detected Face Capturing By precision detecting, tracing, capturing, scoring and screening the moving faces to get the most effective face snapshots Panorama Capturing Support panorama capturing and self-defined information overlay, like device ID, time, etc. Intelligent Light Built-in high efficient white light LEDs, time switch available	PoE	Yes (802.3af)
Face Detection Pupil distance of a facial image over 20 pixel can be detected Face Detection Pupil distance of a facial image over 20 pixel can be detected Face Capturing By precision detecting, tracing, capturing, scoring and screening the moving faces to get the most effective face snapshots Panorama Capturing Support panorama capturing and self-defined information overlay, like device ID, time, etc. Intelligent Light Built-in high efficient white light LEDs, time switch available	LED View Distance	20 ~ 30 m
Face Detection Pupil distance of a facial image over 20 pixel can be detected Face Capturing By precision detecting, tracing, capturing, scoring and screening the moving faces to get the most effective face snapshots Panorama Capturing Support panorama capturing and self-defined information overlay, like device ID, time, etc. Intelligent Light Built-in high efficient white light LEDs, time switch available	Ingress Protection	IP67
Face Capturing By precision detecting, tracing, capturing, scoring and screening the moving faces to get the most effective face snapshots Panorama Capturing Support panorama capturing and self-defined information overlay, like device ID, time, etc. Intelligent Light Built-in high efficient white light LEDs, time switch available	Face Detection	
Face Capturing moving faces to get the most effective face snapshots Panorama Capturing Support panorama capturing and self-defined information overlay, like device ID, time, etc. Intelligent Light Built-in high efficient white light LEDs, time switch available.	Face Detection	Pupil distance of a facial image over 20 pixel can be detected
Intelligent Light Built-in high efficient white light LEDs, time switch available	Face Capturing	
	Panorama Capturing	
		Built-in high efficient white light LEDs, time switch available

Others	
Power Supply	DC12V/PoE
Power Consumption	< 12.5W
Operating Environment	- 30 °C ~ 60 °C (-22°F~140°F) Humidity: less than 95 % (non-condensing)
Dimensions (mm)	Φ 111.5 × 99.6
Weight (net)	Approx. 0.67KG
Installation	Wall mounting; ceiling mounting
