

# FLEXIDOME IP outdoor 5000i

www.boschsecurity.com

**BOSCH**

Invented for life

- ▶ Easy to install with auto zoom/focus lens, wizard and pre-configured modes
- ▶ Fully configurable H.265 multi-streaming
- ▶ 5MP resolution with image quality up to 30 fps for highly detailed images
- ▶ Built-in Essential Video Analytics to trigger relevant alerts and quickly retrieve data
- ▶ High Dynamic Range to see every detail in both bright and dark areas of the scene

The 5MP outdoor dome cameras from Bosch are professional surveillance cameras that provide high quality images for demanding security and surveillance network requirements. These robust domes are true day/night cameras offering excellent performance day or night.

There is a version with a built-in active infrared illuminator that provides high performance in extreme low-light environments.

## System overview

### Vandal resistant outdoor dome with varifocal lens

Ideal for outdoor use, the IK10-rated design is suitable for installations where a vandal resistance is important. The camera is protected against water and dust to IP66 standards. The varifocal lens allows you to choose the coverage area to best suit your application. Mounting options are numerous, including surface, wall, and suspended-ceiling mounting. The automatic zoom/focus lens wizard makes it easy for an installer to accurately zoom and focus the camera for both day and night operation. The wizard is activated from the PC or from the on-board camera push button making it easy to choose the workflow that suits best.

The AVF (Automatic Varifocal) feature means that the zoom can be changed without opening the camera. The automatic motorized zoom/focus adjustment with 1:1 pixel mapping ensures the camera is always accurately focused.

## Functions

### Essential Video Analytics

The built-in video analysis reinforces the Intelligence-at-the-Edge concept and now delivers even more powerful features. Essential Video Analytics is ideal for use in controlled environments with limited detection ranges.

The system reliably detects, tracks, and analyzes objects, and alerts you when predefined alarms are triggered. A smart set of alarm rules makes complex tasks easy and reduces false alarms to a minimum. Metadata is attached to your video to add sense and structure. This enables you to quickly retrieve the relevant images from hours of stored video. Metadata can also be used to deliver irrefutable forensic evidence or to optimize business processes based on people counting or crowd density information.

Calibration is quick and easy – just enter the height of the camera. The internal gyro/accelerometer sensor provides the rest of the information to precisely calibrate the video analytics.

### High Dynamic Range

The camera has High Dynamic Range. This is based on a multiple-exposure process that captures more details in the highlights and in the shadows even in the same scene. The result is that you can easily distinguish objects and features, for example, faces with bright backlight.

The actual dynamic range of the camera is measured using Opto-Electronic Conversion Function (OECF) analysis according to IEC 62676 Part 5. This method is used to provide a standard result which can be used to compare different cameras.

### Intelligent streaming reduces bandwidth and storage requirements

The low-noise image and the efficient H.265 compression technology provide clear images while reducing bandwidth and storage by up to 80% compared to standard H.264 cameras. With this new generation of cameras an extra level of intelligence is added with Intelligent Streaming. The camera provides the most usable image possible by cleverly optimizing the detail-to-bandwidth ratio. The smart encoder continuously scans the complete scene as well as regions of the scene and dynamically adjust compression based on relevant information like movement. Together with Intelligent Dynamic Noise Reduction, which actively analyzes the contents of a scene and reduces noise artifacts accordingly, bitrates are reduced by up to 80%. Because noise is reduced at the source during image capture, the lower bitrate does not compromise image quality. This results in substantially lower storage costs and network strain and still retain a high image quality and smooth motion.

### Bitrate optimized profile

The average typical optimized bitrate in kbits/s for various frame rates when in H.265 mode is shown in the table:

fps	5MP	4MP	3MP	1080p
30	1597	1210	864	600
12	1205	913	652	438
5	799	605	432	284
2	344	261	186	122

### Multiple streams

The innovative multi-streaming feature delivers various H.264 or H.265 streams together with an M-JPEG stream. These streams facilitate bandwidth-efficient viewing and recording as well as integration with third-party video management systems.

The camera can run multiple independent streams that allows to set a different resolution and frame rate on the first and second stream. The user can also choose to use a copy of the first stream.

The third stream uses the I-frames of the first stream for recording; the fourth stream shows a JPEG image at a maximum of 10 Mbit/s.

### Two-way audio and audio alarm

Two-way audio allows the operator to communicate with visitors or intruders via an external audio line input and output. Audio detection can be used to generate an alarm if needed.

### Tamper and motion detection

A wide range of configuration options is available for alarms signaling camera tampering. A built-in algorithm for detecting movement in the video can also be used for alarm signaling.

### Storage management

Recording management can be controlled by the Bosch Video Recording Manager (Video Recording Manager) or the camera can use iSCSI targets directly without any recording software.

### Edge recording

The MicroSD card slot supports up to 2 TB of storage capacity. A microSD card can be used for local alarm recording. Pre-alarm recording in RAM reduces recording bandwidth on the network, or – if microSD card recording is used – extends the effective life of the storage medium.

### Cloud-based services

The camera supports time-based or alarm-based JPEG posting to four different accounts. These accounts can address FTP servers or cloud-based storage facilities (for example, Dropbox). Video clips or JPEG images can also be exported to these accounts. Alarms can be set up to trigger an e-mail or SMS notification so you are always aware of abnormal events.

### Easy installation

Power for the camera can be supplied via a Power-over-Ethernet compliant network cable connection. With this configuration, only a single cable connection is required to view, power, and control the camera. Using PoE makes installation easier and more cost-effective, as cameras do not require a local power source.

The camera can also be supplied with power from +12 VDC/24 VAC power supplies. To increase system reliability, the camera can be simultaneously connected to both PoE and +12 VDC/24 VAC supplies. Additionally, uninterruptible power supplies (UPS) can be used, which will allow continuous operation, even during a power failure.

### Automatic image rotation

The integrated gyro/accelerometer sensor automatically corrects the image orientation in steps of 90° if the camera is mounted at right angles or upside down. The sensor image can also be rotated manually through steps of 90°.

To efficiently capture details in long hallways without loss of resolution, mount the camera at right angles. The image is displayed upright at full resolution on your monitor.

For trouble-free network cabling, the camera supports Auto-MDIX which allows the use of straight or cross-over cables.

### True day/night switching

The camera incorporates mechanical filter technology for vivid daytime color and exceptional night-time imaging while maintaining sharp focus under all lighting conditions.

### Hybrid mode

An analog video output enables the camera to operate in hybrid mode. This mode provides simultaneous high resolution HD video streaming and an analog video output via an SMB connector. The hybrid functionality offers an easy migration path from legacy CCTV to a modern IP-based system.

### Data security

Special measures have been put in place to ensure the highest level of security for device access and data transport. The three-level password protection with security recommendations allows users to customize device access. Web browser access can be protected using HTTPS and firmware updates can also be protected with authenticated secure uploads. The on-board Trusted Platform Module (TPM) and Public Key Infrastructure (PKI) support, guarantee superior protection from malicious attacks. The 802.1x network authentication with EAP/TLS, supports TLS 1.2 with updated cipher suites including AES 256 encryption.

The advanced certificate handling offers:

- Self-signed unique certificates automatically created when required
- Client and server certificates for authentication
- Client certificates for proof of authenticity
- Certificates with encrypted private keys

### Complete viewing software

There are many ways to access the camera's features: using a web browser, with the Bosch Video Management System, with the free-of-charge Bosch Video Client or Video Security Client, with the video security mobile app, or via third-party software.

### Video security app

The Bosch video security mobile app has been developed to enable Anywhere access to HD surveillance images allowing you to view live images from any location. The app is designed to give you

complete control of all your cameras, from panning and tilting to zoom and focus functions. It's like taking your control room with you.

This app, together with the integrated Bosch Dynamic Transcoding on the DIVAR IP recorders, will allow you to fully utilize our dynamic transcoding features so you can play back images even over low-bandwidth connections.

### System integration

The camera conforms to the ONVIF Profile S and Profile G specifications. This guarantees interoperability between network video products regardless of manufacturer.

Third-party integrators can easily access the internal feature set of the camera for integration into large projects. Visit the Bosch Integration Partner Program (IPP) website ([ipp.boschsecurity.com](http://ipp.boschsecurity.com)) for more information.

### DORI coverage

DORI (Detect, Observe, Recognize, Identify) is a standard system (EN-62676-4) for defining the ability of a camera to distinguish persons or objects within a covered area. The maximum distance at which a camera/lens combination can meet these criteria is shown below:

#### 5MP Camera with 3-10 lens

DORI	DORI definition	Distance 3mm / 10mm	Horizontal width
Detect	25 px/m 8 px/ft	59 m / 238 m 195 ft / 780 ft	123 m 403 ft
Observe	63 px/m 19 px/ft	24 m / 94 m 77 ft / 309 ft	49 m 160 ft
Recognize	125 px/m 38 px/ft	12 m / 48 m 39 ft / 156 ft	25 m 81 ft
Identify	250 px/m 76 px/ft	6 m / 24 m 19 ft / 78 ft	12 m 40 ft

### Certifications and approvals

Standards	
	IEC 62471 (IR version)
	EN 60950-1

USA	UL	outdoor 4/5000i

### Installation/configuration notes

### Technical specifications

Power	
Input voltage	+12 VDC $\pm 5\%$ , 24 VAC $\pm 10\%$ or Power-over-Ethernet (48 VDC nominal)
Power consumption (DC)	7.15 W max.
Power consumption (AC)	6.15 W max.

Power	
Power consumption (PoE)	7 W max.
PoE IEEE standard	IEEE 802.3af (802.3at Type 1) Power level: Class 3

Power (IR version)	
Input voltage	+12 VDC $\pm 5\%$ , 24 VAC $\pm 10\%$ or Power-over-Ethernet (48 VDC nominal)
Power consumption (DC)	10.8 W max.
Power consumption (AC)	8.75 W max.
Power consumption (PoE)	9.2 W max.
PoE IEEE standard	IEEE 802.3af (802.3at Type 1) Power level: Class 3

Sensor	
Type	1/2.9-inch CMOS
Effective pixels	3072 (H) x 1944 (V)

### Video performance - Sensitivity

Sensitivity – (3100K, reflectivity 89%, 1/25, F1.3, 30IRE)

• Color	0.24 lx
• Mono	0.03 lx
• With IR	0.0 lx

### Video performance - Dynamic range

High Dynamic Range	120 dB WDR
Measured according to IEC 62676 Part 5	107 dB WDR

### Video streaming

Video compression	H.265; H.264; M-JPEG
Streaming	Multiple configurable streams in H.264 or H.265 and M-JPEG, configurable frame rate and bandwidth. Regions of Interest (ROI)
Camera processing latency	<55 ms (max. average at 1080p30) <65 ms (max. average at 5MP30)
GOP structure	IP
Encoding interval	1 to 25 [30] fps
Encoding regions	Up to 8 areas with encoder quality settings per area

Video resolution	
5MP (16:9)	3072 x 1728
Upright mode 5MP	1728 x 3072
4MP (16:9)	2688 x 1512
Upright mode 4MP	1512 x 2688
3MP (16:9)	2304 x 1296
Upright mode 3MP	1296 x 2304
1080p HD	1920 x 1080
Upright mode 1080p	1080 x 1920
1.3MP (5:4)	1280 x 1024
720p	1280 x 720
480p SD	640 x 480
240p SD	320 x 240
Video functions	
Day/Night	Color, Monochrome, Auto (adjustable switch points)
Adjustable picture settings	Contrast, Saturation, Brightness
White Balance	2500 to 10000K, 4 automatic modes (Basic, Standard, Sodium vapor, Dominant color), Manual mode and Hold mode
Shutter	Automatic Electronic Shutter (AES); Fixed (1/25[30] to 1/15000) selectable; Default shutter
Backlight compensation	On/off
Contrast enhancement	On/off
Signal-to-noise ratio (SNR)	>55 dB
Noise reduction	Intelligent Dynamic Noise Reduction with separate temporal and spatial adjustments
Sharpness	Sharpness enhancement level selectable
Intelligent defog	Intelligent Defog automatically adjusts parameters for best picture in foggy or misty scenes (switchable)
Privacy Masking	Eight independent areas, fully programmable
Video Analysis	Essential Video Analytics
Scene modes	Standard, Sodium Lighting, Traffic, Intelligent AE, Vibrant, Low bitrate, Sports & Gaming, Retail
Other functions	Image mirror, Image flip, Pixel counter, Video watermarking, Display stamping, Location

Camera rotation	Automatic detection with manual override (0° / 90° / 180° / 270°)
-----------------	---

Video content analysis	
Analysis type	Essential Video Analytics
Features	Rule based alarms and tracking Line crossing Enter /leave field Follow route Loitering Idle / removed object People counting Crowd density estimation 3D tracking

Audio detection	Detection of audio to generate an alarm
-----------------	---

Night vision (IR version only)	
Distance	30 m (98 ft)
LED	10 LED high efficiency array, 850 nm
IR intensity	Adjustable

Optical	
Lens type	3 to 10 mm Automatic Varifocal (AVF) lens, IR corrected DC Iris F1.3 – 360
Lens mount	Board mounted
Adjustment	Motorized zoom/focus
Iris control	Automatic iris control
Day/Night	Switched mechanical IR filter
Horizontal field of view	29° - 92°
Vertical field of view	18° - 50°

Input/output	
Analog video out	SMB connector, CVBS (NTSC), 1 Vpp, 75 Ohm, approx. 500 TVL
Audio line in	0.707 Vrms max, 10 kOhm typical, jack connector
Audio line out	0.707 Vrms at 16 Ohm typical, jack connector
Alarm input	1 input
Alarm input activation	Short or DC 5V activation
Alarm output	1 output
Alarm output voltage	30 VDC, max. load 0.5 A
Ethernet	RJ45

Audio streaming	
Standard	G.711, 8 kHz sampling rate L16, 16 kHz sampling rate AAC-LC, 48 kbps at 16 kHz sampling rate AAC-LC, 80 kbps at 16 kHz sampling rate
Signal-to-Noise Ratio	>50 dB
Audio Streaming	Full-duplex / half duplex
Local storage	
Internal RAM	60 s pre-alarm recording
Memory card slot	Supports up to 32 GB microSDHC / 2 TB microSDXC card. (A memory card of Class 6 or higher is recommended for HD recording)
Recording	Continuous recording, ring recording, alarm/ events/schedule recording
Software	
Unit discovery	IP Helper
Unit configuration	Via web browser or Configuration Manager
Firmware update	Remotely programmable
Software viewing	Web browser; Video Security Client; Video Security App; Bosch Video Management System; Bosch Video Client; or third party software
Latest firmware and software	<a href="http://downloadstore.boschsecurity.com/">http://downloadstore.boschsecurity.com/</a>
Network	
Protocols	IPv4, IPv6, UDP, TCP, HTTP, HTTPS, RTP/ RTCP, IGMP V2/V3, ICMP, ICMPv6, RTSP, FTP, ARP, DHCP, APIPA (Auto-IP, link local address), NTP (SNTP), SNMP (V1, V3, MIB-II), 802.1x, DNS, DNSv6, DDNS (DynDNS.org, selfHOST.de, no-ip.com), SMTP, iSCSI, UPnP (SSDP), DiffServ (QoS), LLDP, SOAP, Dropbox™, CHAP, digest authentication
Encryption	TLS1.0/1.2, AES128, AES256
Ethernet	10/100 Base-T, auto-sensing, half/full duplex
Connectivity	Auto-MDIX
Interoperability	ONVIF Profile S; ONVIF Profile G; GB/T 28181
Mechanical	
3-axis adjustment (pan/tilt/rotation)	350° / 130° / 330°
Dimensions (Ø x H)	145 x 131 mm (5.71x 5.14 in)
Weight	1102 g (2.43 lb)

Mechanical	
Color	RAL 9003, RAL 9017
Housing material	Aluminum
Dome bubble	Polycarbonate, clear with anti-scratch coating
Environmental	
Operating temperature	-40 °C to +50 °C (-40 °F to +122 °F) for continuous operation; -34 °C to +74 °C (-30 °F to +165 °F) according to NEMA TS 2-2003 (R2008), para 2.1.5.1 using fig. 2.1 test profile
Storage temperature	-40 °C to +70 °C (-40 °F to +158 °F)
Operating humidity	5% to 93% RH non condensing 5% to 100% RH condensing
Ingress protection	IP66
Impact protection	IK10

### Ordering information

**NDE-5503-A Fixed dome 5MP HDR 3-10mm auto IP66**  
Vandal-resistant IP dome cameras for outdoor MP surveillance with H.265 and Essential Video Analytics. Fixed dome 5MP HDR 3-10mm auto IP66. Order number **NDE-5503-A**

**NDE-5503-AL Fixed dome 5MP HDR 3-10mm auto IP66**  
Vandal-resistant IP dome camera for outdoor MP surveillance with H.265, Essential Video Analytics and integrated infrared. Fixed dome 5MP HDR 3-10mm auto IP66. Order number **NDE-5503-AL**

### Accessories

**BUB-TIN-FDO Bubble, tinted, outdoor**  
Tinted polycarbonate bubble for dome camera. Outdoor  
Order number **BUB-TIN-FDO**

**BUB-CLR-FDO Bubble, clear, outdoor**  
Clear polycarbonate bubble for dome camera Outdoor  
Order number **BUB-CLR-FDO**

**NDA-5030-PIP Pendant interface plate NDE-4/5000**  
Pendant interface plate for outdoor FLEXIDOME 4000i / 5000i.  
Order number **NDA-5030-PIP**

**NDA-U-WMT Pendant wall mount**  
Universal wall mount for dome cameras, white  
Order number **NDA-U-WMT**

**NDA-U-PMT Pendant pipe mount, 12" (31cm)**  
Universal pipe mount for dome cameras, 31 cm, white  
Order number **NDA-U-PMT**

**NDA-U-PMAS Pole mount adapter small**

Pole mount adapter small

Universal pole mount adapter, white; small.

Order number **NDA-U-PMAS**

**NDA-U-PMTE Pendant pipe extension, 20" (50cm)**

Extension for universal pipe mount, 50 cm, white

Order number **NDA-U-PMTE**

**NDA-U-PSMB Pendant wall/ceiling mount SMB**

Surface mount box (SMB) for wall mount or pipe mount.

Order number **NDA-U-PSMB**

**NBN-MCSMB-03M Cable, SMB to BNC, camera-cable, 0.3m**

0.3 m (1 ft) analog cable, SMB (female) to BNC (female) to connect camera to coaxial cable

Order number **NBN-MCSMB-03M**

**NBN-MCSMB-30M Cable, SMB to BNC, camera-monitor/DVR**

3 m (9 ft) analog cable, SMB (female) to BNC (male) to connect camera to monitor or DVR

Order number **NBN-MCSMB-30M**

**NDN-IOC-30M Cable, IP66 certified, waterproof**

An IP66 certified cable for easy waterproof installation

Order number **NDN-IOC-30M**

**NDA-LWMT-DOME Wall mount, L-shaped, for dome camera**

Sturdy wall L-shaped bracket for dome cameras

Order number **NDA-LWMT-DOME**

**NDA-ADT4S-MINDOME Surface mount box for dome camera**

Surface mount box (Ø145 mm / Ø5.71 in) for dome cameras (use together with the appropriate dome adapter bracket).

Order number **NDA-ADT4S-MINDOME**

**NDA-FMT-DOME Inceiling flush mount for dome camera**

In-ceiling flush mounting kit for dome cameras (Ø157 mm)

Order number **NDA-FMT-DOME**

**UPA-1220-60 Power supply, 120VAC 60Hz, 12VDC 1A out**

Power supply for camera. 100-240 VAC, 50/60 Hz In; 12 VDC, 1 A Out; regulated.

Input connector: 2-prong, North American standard (non-polarized).

Order number **UPA-1220-60**

**NPD-5001-POE Power over ethernet , 15.4W, 1-port**

Power-over-Ethernet midspan injector for use with PoE enabled cameras; 15.4 W, 1-port

Weight: 200 g (0.44 lb)

Order number **NPD-5001-POE**

**NPD-5004-POE Power over ethernet, 15.4W, 4-port**

Power-over-Ethernet midspan injectors for use with PoE enabled cameras; 15.4 W, 4-ports

Weight: 620 g (1.4 lb)

Order number **NPD-5004-POE**

**NDA-U-CMT Corner mount adapter**

Universal corner mount, white

Order number **NDA-U-CMT**

**NDA-U-PA0 Surveillance cabinet 24VAC**

Surveillance cabinet, 24 VAC input, 24 VAC output, IP66

Order number **NDA-U-PA0**

**NDA-U-WMT Pendant wall mount**

Universal wall mount for dome cameras, white

Order number **NDA-U-WMT**

**NDA-U-PMAL Pole mount adapter large**

Universal pole mount adapter, white; large

Order number **NDA-U-PMAL**

**NDA-U-RMT Pendant parapet mount**

Universal roof mount for dome cameras, white

Order number **NDA-U-RMT**

**NDA-U-WMP Wall mount plate**

Back plate for universal wall mount, corner mount and pole mount, white, IP66

Order number **NDA-U-WMP**

**S1460 Service monitor cable, 2.5mm jack to BNC**

2.5 mm jack to BNC video connector cable. 1 m

Order number **S1460**

**NDA-U-PA1 Surveillance cabinet 120VAC**

Surveillance cabinet, 100 - 120 VAC 50/60 Hz input, 24 VAC output, IP66

Order number **NDA-U-PA1**

**NDA-U-PA2 Surveillance cabinet 230VAC**

Surveillance cabinet, 230 VAC input, 24 VAC output, IP66

Order number **NDA-U-PA2**
