

PS-DC30A18E

18-Port Power Box , -DC12V 30Amp CE,FCC

Thermal Cutoffs Protection (TCO): each output has independent PTC fuse and LED indicator, when problem occurs, only affect the independent output, other outputs still working.

Short circuit protection: when short condition occurs, independent PTC fuse will open the circuit, when condition removed, PTC fuse will automatically back to close.

High voltage protection: when high voltage occurs, the surge protection will be hit through to protect the connected device.

Over Current protection: when over current occurs, the power supply will automatically switch to self-protection status, when condition removed, then switch back to normal.

Input Voltage : AC 100-240V, Auto Switch

Input Voltage Frequency 50/60Hz

Output Voltage : DC 12V +/-5%

Total Output Current : 130A

Total Outputs : 18

Fuse Type : PTC (Resettable) Never need to replace.

Fuse Rating : 2.5A
